Board of Directors Meeting

This year's Board of Directors meeting will be on Wednesday, June 25 from 1:00 - 4:30 pm in the Palm Court Ballroom.

Registration Hours

Everyone attending the HCPA Mid-Year Meeting must register. This includes all members, speakers, and media representatives. The HCPA Registration Desk is in the Promenade Foyer on the lobby level and will be open:

Sunday 2:00 – 5:00 pm | Monday 8:00 am – 5:00 pm | Tuesday 8:00 am – 5:00 pm | Wednesday 7:30 am - 12:45 pm

Badges and Attendance Policy

The Mid-Year Meeting is open to registered attendees only. Badges will be issued at the HCPA Registration Desk and are required at all HCPA-sponsored sessions and social events.

HCPA Staff Office

The HCPA staff office is located in the Cabinet Room on the lobby level. We invite you to stop by to say hello or have any questions answered. We are here to help you get the most from your Mid-Year Meeting!

Office hours are:

Sunday 2:00 – 5:00 pm

Monday 8:00 am – 5:00 pm

Tuesday 8:00 am – 5:00 pm

Wednesday 8:00 am – 1:00 pm

Mid-Year Meeting WiFi

Complimentary WiFi for HCPA's Mid-Year Meeting is sponsored by Henkel.

Username = **HCPA Mid-Year Meeting** Password = **HENKEL**

x

Hard Questions.
Tough Challenges.
Bring It.

Regulatory and scientific expertise
that spans the product lifecycle

Exponent's global, multidisciplinary approach to chemical regulatory compliance focuses on the complete product lifecycle, addressing strategic and technical planning needs, as well as complex regulatory issues.

We support manufacturers, registrants, distributors, and retailers of all sizes globally through integrated activities at every stage of a product's lifespan, including due diligence and strategic regulatory assessments, proactive and reactive interface with regulatory agencies, product registrations, product stewardship strategies, and follow-up regulatory support.

WD-40 Company

BOARD OF DIRECTORS

Jerry Porter, The Procter & Gamble Company | SVP, R&D, Global Fabric Care, Flavors & Fragrance Discipline Capability and Fabric & Home Care Sector
Greg Adamson, Givaudan Fragrances Corporation | SVP, Global Regulatory Affairs, Product Safety and Sustainability
Lisa Dreilinger, Arxada | Global Vice President Regulatory, Consumer Microbial Control
Joel Burdick, Ph.D., Bath & Body Works | VP, Scientific and Regulatory Affairs
Kerry Blissett, Firmenich | Head of Regulatory Affairs P&B
Bob Butterick, Ph.D., Dow | TS&D Director, Home and Personal Care Northeast Dow Center Site Leader
Leslie Curry, Ecolab | SVP, Global Regulatory Affairs
Adriano Galimberti, Stepan Company | VP & General Manager, NA
Michael Pfefferkorn, United Industries Corporation | Division VP and General Counsel
Kevin Rejent, Energizer Holdings, Inc. | Senior Counsel—Regulatory & Head of Government Affairs
Adam Warren, Henkel Corporation | VP, Product Innovation Laundry & Home Care R&D, NA
Bart Bastian, Spray Products Corporation | President & CEO
Art Esposito, Church & Dwight Co., Inc. | Director, Global Product Stewardship and Sustainability
Brian Herrington, Scotts Miracle-Gro Company | President, SMG Foundation & VP External Affairs
Jaime McKinley, W.F. Young, Inc. | President
Tonya Morris, Nelson Laboratories LLC | Global Segment Director of Antimicrobials, Disinfectants and Virus Studies
John Schierlmann, IndSpyre Solutions | Technical Director
Shardona Daneshvari, International Flavors and Fragrances | VP, Regional General Manager NOAM Consumer Fragrances
Julia Kim, Reckitt | VP, Regulatory Affairs and Safety for North America
Stephanie Blakely, Symrise | VP, Global Regulatory Services & Compliance Scent & Care Division
David Burks, Diversified CPC, Inc. | David Burks, President & CEO
Chris Pearce, SC Johnson | Senior Director, Global Government Relations
Ted Head, McLaughlin Gormley King Co. | Director of Regulatory Affairs
Kathy Elkey, PLZ Corp. | President, Cleaning & Food SBU
Jamey Gaston, Midlab | VP of Quality, Science, and Regulatory
Brian Warner, Willert Home Products, Inc. | VP/CFO

PRODUCT DIVISION CHAIRS

ADVISORS TO THE BOARD

Aerosol Products Division

Kevin Verville, Summit Packaging

Air Care Products Division

Harman Singh, International Flavors and Fragrances

Antimicrobial Products Division

Lisa Dreilinger, Arxada

Cleaning Products Division

Bryan Parrish, The Clorox Company

Floor Care Products Division

Dan Pfister, Hillyard Industries, Inc.

Industrial & Automotive Products Division

Allyson Azar, Energizer Holdings, Inc.

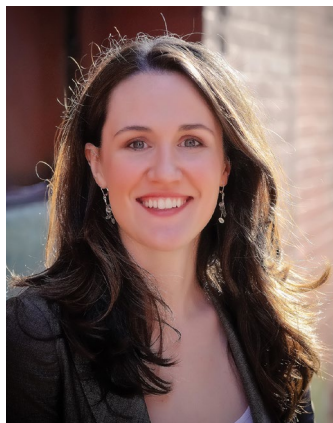

Pest Management Products Division

Jennifer Schofield, Elanco

GENERAL SESSION KEYNOTE

GENERAL SESSION WITH LUNCH AND KEYNOTE PRESENTATION **MONDAY, JUNE 23**

12:00 - 1:30 pm – Grand Ballroom

Keynote **Liz Murray**

Co-Founder, The Arthur Project

From homeless to Harvard... it is an unlikely turn of events. Liz Murray's life is a triumph over adversity and a stunning example of the importance of dreaming big. Murray was raised in the Bronx by two loving but drug-addicted parents. She grew up in poverty, often without enough food, chronically absent from school and, most of all, struggling to connect her education to a viable future.

By age 15, Murray's mom had died and she was homeless—living on the streets, riding the subway all night, and eating from dumpsters. Amidst this pain, Murray always imagined her life could be much better than it was. "I started to grasp the value of the lessons learned while living on the streets. I knew after overcoming those daily obstacles that next to nothing could hold me down." Determined to take charge of her life, and with the support of an upstairs neighbor and trusted family friend named Arthur, Murray finished high school in just two years and was awarded a full scholarship to Harvard University – all while camping out in New York City parks and subway stations.

Sponsored by Spartan Chemical Company

MONDAY, JUNE 23

8:00 am - 5:00 pm | Promenade Foyer

Registration

8:00 - 9:00 am | Promenade Foyer

Networking Grab and Go Breakfast

Sponsored by McLaughlin Gormley King Co

8:30 - 10:30 am | Chinese Ballroom

Cleaning Products Division Meeting

This session will bring together raw material suppliers, manufacturers, and marketers of household and professional cleaning and care products. We will cover key Division business, including updates on current projects, industry developments, and ongoing collaborative efforts. Participants will have the chance to engage in discussions that influence the Division's priorities and future initiatives.

9:00 - 10:00 am | Palm Court

International Affairs Council Program

This session will explore the evolving regulatory landscape being shaped by the new EU Regulation 2025/40 on Packaging and Packaging Waste Regulation (PPWR), as well as the updated Classification, Labelling and Packaging (CLP) Regulation, with a specific focus on their combined impact on compliance obligations.

- **Rosalinda Gioia**, Chief Scientific Officer, Yordas Group, will review recent updates to CLP, specifically the addition of new hazard classes, including endocrine disruptors (EDs); persistent, bioaccumulative and toxic (PBT) substances; and persistent, mobile and toxic (PMT) substances. These classifications affect packaging in several ways – from substance restrictions and labeling to end-of-life treatment.
- **Manon Pascal**, Regulatory Affairs Manager, Lindal North America, will provide a comprehensive overview of the requirements of the PPWR and how those will revolutionize the EU packaging industry.

MONDAY, JUNE 23

10:00 am - 12:00 pm | Palm Court

Joint Aerosol & Air Care Products Division Program

- **Molka Chavelier**, Vice President, Head of Regulatory Affairs Americas and External Relations CoE, Givaudan
- **Neal Cohen**, Product Safety Attorney, U.S. Consumer Product Safety Commission (CPSC)
- **Luisa Lobo**, Senior Manager, Legal & Regulatory Affairs, Retail Industry Leaders Association (RILA)
- **Graeme Walker**, Global Product Manager, Emerson

10:30 am - 12:00 pm | Chinese Ballroom

Floor Care Products Division Program

The James Machine: 99 Years and Counting

This session will explore the history and enduring significance of the James Machine, which was developed by Sydney V. James at Underwriters Laboratories, Inc. to measure the Static Coefficient of Friction (SCOF) of floor polishes.

Stuart Hughes will highlight the machine's adoption by key technical organizations, including HCPA and ASTM, and examine the mathematical basis behind its operation. The presentation will conclude with a discussion of the James Machine's continued relevance in assessing SCOF for pedestrian walkway safety.

Following this special presentation, the program will continue with the Division's regular monthly meeting.

- **Stuart Hughes**, Past Chair, Floor Care Products Division, HCPA

12:00 - 1:30 pm | Grand Ballroom

General Session with Lunch and Keynote Presentation

Sponsored by BASF Corporation

- **Liz Murray**, Co-Founder, The Arthur Project

1:30 - 2:30 pm | Palm Court

Metal Packaging Circularity: Navigating the Future of Aerosol Recycling and PCR Content

As the demand for sustainable packaging grows, the metal packaging industry is focused on improving recycling outcomes and increasing the use of post-consumer recycled (PCR) content. With a particular emphasis on aerosols, this session will bring together experts from across the supply chain to explore the challenges and opportunities in recycling, the current state of the U.S. recycling infrastructure, and ongoing efforts to overcome these barriers. Through an interactive format, attendees will be invited to consider these issues, both as industry professionals and consumers, gaining a broader perspective on how industry can work toward a more circular and sustainable future for metal packaging.

- **Scott Breen**, President, Can Manufacturers Institute (CMI)
- **Gary Okey**, Executive Vice President, Recycle Aerosol LLC
- **Micahel Pratt**, Senior Sustainability Manager, Sonoco Products Company

MONDAY, JUNE 23

1:30 - 2:30 pm | Chinese Ballroom

Regulatory Affairs Council Program

This session will review recent TSCA activity, as well as chemical management activity at the state level. This session will detail the scientific and regulatory developments to watch out for in 2025, including updates on Existing Chemicals under the Toxic Substances Control Act (TSCA) and Currently Unavoidable Uses (CUU) of PFAS in Minnesota and Maine.

- **Rich Engler**, Director of Chemistry, Bergeson & Campbell
- **Kristian Fried**, Senior Consultant, Integral Consulting

1:30 - 2:45 pm | Senate Room

Antimicrobial Products Division Meeting Working Session

This interactive working session will focus on advancing one of the Division's top priorities (to be determined by members). Together, we will collaborate to develop a work product that delivers value to members and supports HCPA's advocacy in a key issue area impacting antimicrobial products. This session is designed to move from discussion to action – bringing forward member perspectives and expertise to shape an informed, strategic output that will guide the Division's next steps and influence ongoing engagement with the EPA and other stakeholders.

2:30 - 3:00 pm | Promenade Foyer

Networking Break

Sponsored by The Clorox Company

3:00 - 4:00 pm | Senate Room

Aerosol Products Division Scientific Committee Meeting

The Scientific Committee develops standards and specifications, participates in relevant research efforts, and explores current and potential aerosol technologies. The Scientific Committee also engages with global institutions that impact the storage, trade, and manufacturing of aerosol products to ensure that these practices are safe, effective, and manageable.

3:00 - 5:00 pm | Grand Ballroom

Government Relations Special Session - Joint Federal & State Affairs

This session will feature a presentation from Maryland Senator Malcom L. Augustine (D-Prince George's County). Senator Augustine will explain his multi-year effort to champion packaging EPR in Maryland, beginning with an EPR study and recycling needs assessment and culminating in the passage of an EPR bill by the Maryland legislature during the 2025 legislative session. The Senator will also discuss the stakeholder partnerships that helped get the bill across the finish line.

- **Nancy Beck**, Principal Deputy Assistant Administrator, Office of Chemical Safety & Pollution Prevention, EPA
- **Maryland Senator Malcolm Augustine** (D-Prince George's County)

MONDAY, JUNE 23

4:00 - 5:00 pm | Senate Room

Aerosol Products Division Membership Committee Meeting

The Membership Committee plans and executes the programming of the Aerosol Products Division, maintains and improves the engagement of aerosol members, and recruits new aerosol or aerosol-adjacent companies to join HCPA.

TUESDAY, JUNE 24

8:00 am - 5:00 pm | Promenade Foyer

Registration

8:00 - 9:00 am | Promenade Foyer

Networking Grab and Go Breakfast

Sponsored by McLaughlin Gormley King Co

8:30 - 10:00 am | Senate Room

Antimicrobial Products Division Executive Board Meeting

The Executive Board oversees the activities of the Antimicrobial Products Division and focuses on strategies to advance and protect the antimicrobial products industry. This session will cover key initiatives, industry challenges, and strategic priorities to ensure the continued growth and success of the sector.

8:30 - 10:00 am | Palm Court

Pest Management Products Division Committee Meeting

States and Strategy Update

This session will address pesticide activity at the state level, as well as offer time for attendees to participate in a strategic discussion about PRIA 6 and EPA efficiencies.

9:00 - 10:00 am | Grand Ballroom

Air Quality Council Meeting

This session will address the latest developments on volatile organic compound (VOC) regulations and the potential transition to Maximum Incremental Reactivity (MIR) by the California Air Resources Board (CARB), as well as other federal and state regulatory activity related to air quality.

- **Nicholas Georges**, Vice President, Scientific & International Affairs, HCPA, will discuss formulation strategies for MIR compliance across multiple product categories.

TUESDAY, JUNE 24

9:00 - 10:00 am | Chinese Ballroom

Sustainability & Product Stewardship Council Meeting Credibility, Certifications & Claims Task Force

Building Trust and Transparency: Certifications for Safer, More Sustainable Products

In this session, attendees will hear updates from leading organizations and have the opportunity to engage in discussions about the role of certification programs in promoting safer, more sustainable products.

- **Doug Gatlin**, Chief Executive Officer, Green Seal
- **Gavin Macgregor-Skinner**, Senior Director, ISSA, Making Safer Choices Program
- **Scott Mackey**, Director of Growth, SmarterX

10:00 - 10:30 am | Promenade Foyer

Networking Break

Sponsored by International Flavors and Fragrances

10:30 - 11:30 am | Senate Room

Aerosol Products Division Regulatory Committee Meeting

The Regulatory Committee develops and advances policies that promote and protect the safe and effective use of aerosol products. The Regulatory Committee engages with state and federal legislators and global stakeholders to promote trade and harmonize laws and regulations. The Regulatory Committee also works to minimize potential disruptions throughout the supply chain and works to improve the sustainability of aerosol products.

10:30 am - 12:00 pm | Chinese Ballroom

Antimicrobial Products Division AEG Meeting

During this session, representatives from the EPA's Biological and Economic Analysis Division (BEAD) will provide an update on the Division's latest activities, including priorities, test method development updates, and outreach efforts.

- **Rebecca Pines**, Branch Chief, EPA BEAD
- **Donald Wilbur**, Director, EPA BEAD

10:30 am - 12:00 pm | Palm Court

Government Relations Special Session - TSCA Policy and Congressional Developments

This session will explore where Congressional activity on the Toxic Substances Control Act (TSCA) may be headed and how companies can prepare to engage. Topics will include upcoming TSCA reauthorization deadlines, policy improvements under consideration, and legislative activity relevant to chemicals policy.

- **Rich Engler**, Director of Chemistry, Bergeson & Campbell
- **David Fischer**, Counsel, Keller & Heckman
- **Jake Kennedy**, Senior Professional Staff Member, Senate Committee on Environment and Public Works

TUESDAY, JUNE 24

12:00 - 1:00 pm | Promenade Foyer

Networking Lunch

1:00 - 2:00 pm | Palm Court

Aerosol Products Division Meeting

Working Session - Fire Codes

Since the 1980s, HCPA has helped develop and maintain both National Fire Protection Association (NFPA) and international fire and building codes that allow aerosols to be manufactured, distributed, stored in warehouses, and placed on retailer shelves. HCPA uses sound science to ensure that its positions are credible and compelling to fire officials, insurers, and fire engineering professionals who manage the nation's complex system of fire and building codes. In this working session, attendees will discuss the latest developments regarding aerosol fire codes and determine the direction for upcoming positions.

1:00 - 2:00 pm | Grand Ballroom

Sustainability & Product Stewardship Council Program

Monetizing Carbon Reductions: Building Business Value Across the Supply Chain

Reducing carbon emissions isn't just a regulatory requirement – it's a growing source of competitive advantage. This session will explore how companies across the supply chain are turning carbon footprint reductions into brand value. From base chemical production to retail shelves, speakers from each step of the supply chain will share how they're tracking, reducing, and communicating their products' carbon impacts – and why it matters to their businesses.

Through this practical and forward-looking discussion, attendees will gain insights into how carbon transparency can strengthen brand reputation, meet customer demand, and drive collaboration across the supply chain.

- **Chris Aiello**, Principal Environmental Scientist, WD-40 Company
- **Chris Cassell**, Vice President, Corporate Sustainability, Lowe's Companies Inc.
- **Luiziana Ribeiro**, Director of Sustainability, BASF Corporation
- **Sean Sheppard**, Chief Executive Officer, Radical Catalyst

1:00 - 2:30 pm | Senate Room

Pest Management Products Division Meeting

25(b) Minimum Risk Pesticides

This session will focus on minimum risk pesticides at both the state and federal levels.

- **Daniel Duer**, Pesticide Specialist, Pennsylvania Department of Agriculture (virtual)
- **Samantha Tochen**, Registration Specialist, Washington Department of Agriculture (virtual)

TUESDAY, JUNE 24

1:00 - 3:00 pm | Chinese Ballroom

Antimicrobial Products Division Regulatory Committee Meeting

During this session, representatives from the EPA's Antimicrobials Division (AD) will provide an update on the Division's latest activities, including priorities and staffing updates.

- **Anita Pease**, Director, EPA AD
- **Kristen Willis**, Deputy Director, EPA AD

2:00 - 3:00 pm | Grand Ballroom

Government Relations Special Session - State Affairs

This session will help shape HCPA's strategic engagement on key chemical management issues—such as PFAS and 1,4-dioxane—along with policies related to product end-of-life, including packaging, HHW, and EPR. The conversation will also cover product restrictions involving microplastics, animal testing, and pesticides.

2:00 - 3:00 pm | Palm Court

Industrial & Automotive Products Division Meeting

Fluorinated chemistries provide unique benefits in many end-uses, but certain PFAS have been classified as “forever chemicals” and associated with human health issues. Because of its broad chemical class, PFAS is present across the supply chain and can find their way into products – both intentionally and unintentionally from raw materials, packaging treatments, and through water sources.

During this presentation, attendees will learn about:

Raw material supply chain

- Types of raw materials that are fluorinated, their functions, and end-use applications in household and commercial products
- Alternative approaches to PFAS in raw materials

Packaging

- Use of fluorinated treatments in plastic and paper packaging
- Trends in packaging and the impact of product design on packaging
- **Julie Vaughn Biege**, Vice President, The ChemQuest Group, Inc.

TUESDAY, JUNE 24

3:00 - 5:00 pm | Chinese Ballroom

Joint Cleaning & Floor Care Products Division Program

Innovation with Care: Data, AI, and the Future of Safer Cleaning and Floor Care Products

Innovation thrives on good data and thoughtful execution. This session will explore how organizations can embrace cutting-edge tools – like generative AI – while also staying grounded in safety, ethics, and real-world impact. The session will begin with insights from a veterinary toxicologist at Pet Poison Helpline, where pet exposure data reveals unexpected risks tied to household products and guides safer product development. Then, we will zoom out to examine how generative AI can amplify this kind of data-driven innovation – accelerating insight generation, reducing time to market, and identifying risk before it reaches consumers. Drawing on case studies, including pet safety data used in cleaning product formulation, this session will explore how gen AI adoption is less about technology and more about the thoughtful use of knowledge – both human and machine – to drive safer, smarter outcomes.

Key Takeaways:

- Understand how toxicology data helps shape safer consumer products
 - Learn practical ways to adopt gen AI to improve collaboration, speed, and insight
 - See how AI can augment—not replace—human expertise in risk management
 - Explore what responsible innovation looks like at the intersection of data, safety, and technology
-
- **Rafael Ortiz**, Chief Technology Officer, CLR Brands Company (**moderator**)
 - **Ahna Brutlag**, Vice President of Veterinary Services and Partner, SafetyCall International & Pet Poison Hotline
 - **Alan Johnson**, Managing Director, Chemical & Workplace Safety, 3E
 - **Jacob Smith**, Innovation Advisor and Digital Lead, RTI International

3:00 - 5:00 pm | Grand Ballroom

Joint Sustainability & Product Stewardship and Government Relations Special Session

This session will look at the evolving landscape of sustainable packaging for household and commercial products, focusing on EPR, PCR content, and related regulatory drivers to reduce packaging waste and corresponding implementation strategy considerations. The first hour will be a panel discussion of EPR and PCR policy and requirements in the U.S., highlighting special considerations for aerosols, pesticides, and products considered HHW. During the second hour, attendees and panelists will split into breakout rooms to discuss specific topics in greater detail.

- **Jamie Pero Parker**, Sustainability Team Lead, Senior Innovation Advisor, RTI International
- **Colin Preston**, Managing Consultant, Ramboll
- **Kelly Smith**, Vice President, Head of Institutional Affairs, Ferrero USA
- **Michael Washburn**, Principal, Washburn Consulting: Sustainability & Public Affairs
- **Keith Weitz**, Director, Sustainability and Resource Management, RTI International

5:15 - 6:30 pm | District Ballroom

Cocktails and Connections

Sponsored by The Procter & Gamble Company

WEDNESDAY, JUNE 25

International Affairs Council Program

Global Trade

Rising tariffs, heightened regulatory scrutiny, and geopolitical volatility are transforming the global trade landscape. As business costs increase around the world, having a well-defined strategy is crucial to navigating these new and significant uncertainties.

This panel discussion will discuss the latest trade activities and inform companies how to remain resilient and competitive in an evolving marketplace.

- **David French**, Senior Vice President of Global Relations, National Retail Federation (NRF)
- **Richeek Maitra**, Director, Performance and Technology - Sourcing and Procurement Transformation, AlixPartners

8:00 - 9:30 am | District Ballroom

Scientific Affairs Committee and Task Force Meeting

Adapting to a Rapidly Changing Regulatory Environment

This session will help attendees understand how to minimize regulatory compliance risks and accurately report under the Toxics Release Inventory (TRI) through data management. Experts will provide strategies for identifying potential compliance data needs while leveraging existing AI solutions.

- **Madeleine Bee**, Senior Scientist, Exponent
- **Marianne Heckmann**, Principal Consultant, Yordas Group

WEDNESDAY, JUNE 25

8:00 - 9:30 am | **Grand Ballroom**

Joint Antimicrobial & Pest Management Products Division Program

The Regulation of Pesticides Beyond the EPA

Experts will discuss the ever-changing pesticide regulatory landscape, including registration requirements and how states are filling federal-level gaps. There will be a specific focus on California, Canada, and the EU.

The Rodenticide Task Force provides information about the appropriate and effective use of rodenticides as part of Integrated Pest Management programs that protect public health, food safety, and property, while also protecting the environment, endangered species, and other non-target animals. Proposed and recent changes in federal and state regulations of rodenticides may have a myriad of impacts on the industry, and adapting to these changes and understanding potential effects are critical to developing effective strategies.

- **Will Pitt**, Executive Director, Rodenticide Task Force
- **Emily Saad**, Senior Managing Scientist, Exponent
- **Jonathan Walsh**, Principal Regulatory Consultant, TSG Consulting

8:30 - 9:30 am | **Palm Court**

Air Care Reputation Task Force Meeting

9:00 - 10:00 am | **Senate Room**

Sustainability & Product Stewardship Council Board Meeting

9:45 - 10:45 am | **Palm Court**

Air Care Products Division Program

9:45 - 11:15 am | **District Ballroom**

Pest Management Products Division Committee Meeting

This session will provide an update from the EPA's Registration Division.

- **Charles "Billy" Smith**, Director, Registration Division, Office of Pesticide Programs, EPA

10:15 - 11:15 am | **Senate Room**

Aerosol Products Division Executive Board Meeting

The Executive Board oversees the activity of the Aerosol Products Division and discusses strategies for advancing and protecting the industry.

WEDNESDAY, JUNE 25

10:45 am - 11:45 am | Palm Court

Air Care Products Division Board Meeting

This is a closed meeting.

11:30 am - 12:45 pm | Grand Ballroom

Closing General Session with Lunch and Keynote Presentation

Robert Costa

Emmy Award-winning national correspondent for "CBS News Sunday Morning"; chief Washington analyst for CBS News covering the Trump administration; #1 New York Times bestselling author

Costa's work at "Sunday Morning" includes coverage of national politics; in-depth interviews with newsmakers; and features on culture, literature, and the arts. As chief Washington analyst for CBS News, Costa offers reporting and analysis to a number of programs, including the CBS Evening News, Face the Nation with Margaret Brennan, and CBS Mornings.

Costa has covered President Donald Trump for over a decade and interviewed him on numerous occasions, with conversations on Trump's campaign plane and at Trump Tower during key moments in Trump's political career. *Politico* once called Costa a "Trump whisperer" due to his close coverage of Trump's rise to power, and Costa continues to report on the Trump White House, Congress, and the influence of Trump's voters in American politics.

1:00 - 4:30 pm | Palm Court

Board of Directors Meeting

EXHIBITORS

TABLE 2

HCPA Consumer Product Ingredient Dictionary

The HCPA Consumer Product Ingredients Dictionary is the comprehensive technical reference for companies complying with California's Cleaning Product Right to Know Act. The Dictionary ensures standard ingredient nomenclature and definitions for formulators, suppliers, regulators, retailers, and other stakeholders. The Dictionary contains more than 1,700 Ingredient Records and defines more than 7,000 technical or other names, as well as more than 1,100 trade names used by 80 suppliers. The Dictionary also includes Lists of Lists information to assist with ingredient disclosure efforts.

The HCPA Consumer Product Ingredients Dictionary allows you to search for ingredients by chemical class, functions, product uses, and more.

TABLE 3

Container Specialties

Container Specialties, Inc. is a blow-molding company that manufactures several different styles of plastic containers, including EVOH. Container Specialties, Inc. can also manufacture custom blow-molded products and containers for all types of applications.

TABLE 4

Eurofins

Global leader in Testing for Life. Local service and support accessing global safety, quality and regulatory knowledge, expertise and testing capabilities across 950+ locations in 60 countries. Comprehensive solutions including regulatory, analytical, VOC, toxicological, microbiological, ecotoxicity, biodegradability, registrations, in vitro and in vivo clinical studies, stability/compatibility, claims substantiation, sustainability services, and more.

TABLE 5

Scientific & Regulatory Consultants

SRC is a full-service regulatory consulting firm for the antimicrobial and pesticide industry. With over 250 years of combined experience, they have the expertise to assist you with any part of the registration process from R&D to retail. Make sure you connect with the team to learn more about SRC's Canadian registration services! For more information regarding the team and their specialties, visit <https://srcconsultants.com>

TABLE 6

Exponent

In an era of accelerating change, Exponent is the only premium engineering and scientific consulting firm with the depth and breadth of expertise to solve our clients' most profoundly unique, unprecedented, and urgent challenges. Exponent brings together 90+ technical disciplines and 950+ consultants to help our clients navigate the increasing complexity of more than a dozen industries, connecting decades of pioneering work in failure analysis to develop solutions for a safer, healthier, more sustainable world.

TABLE 7

IndSpyre Solutions

At IndSpyre Solutions, we partner with household, industrial, and institutional manufacturers to provide high-performance and cost-effective raw materials promptly and reliably. Through our prompt service and personalized technical support, we can help you identify the ideal solution.

TABLE 8

CERIS at Purdue University

The Center for Environmental and Regulatory Information Systems (CERIS) is a center within the Entomology Department at Purdue University. It is home to a collection of databases of information on pesticides, plant export/import requirements, and exotic pest tracking. Data is principally received from EPA, USDA, and United States state agencies.

TABLE 9

Element Eagan

Element Eagan is the premier contract antimicrobial testing laboratory and expert partner to the developers, manufacturers and users of antimicrobial pesticide and biocide products. We have more than 30 years of experience generating ISO and GLP-compliant data that is accepted by U.S. EPA, FDA, and other International regulatory bodies.

TABLE 10

Barentz

Barentz delivers innovative, sustainable solutions for household, industrial, and institutional cleaning markets. With extensive technical expertise, a broad product portfolio, and world-class laboratory support, Barentz brings high-performance formulations and ingredients for laundry, dish wash, floor finish, surface care, pet care cleaning, and vehicle cleaning.

TABLE 11

SafetyCall International

SafetyCall International operates the world's largest 24/7 human and animal adverse event call center, providing clients and their customers with immediate, around-the-clock access to trusted health, safety, and medical information. Its structure as a multidisciplinary health care practice provides manufacturers with adverse event management, regulatory reporting, post-market surveillance, and consulting services. As nationally recognized experts in the collection and interpretation of spontaneously reported incident data, the professional staff has managed more than 3 million product incident cases in the past 30 years, significantly impacting product safety worldwide. SafetyCall® also operates Pet Poison Helpline, a 24/7 animal poison control service for pet owners and veterinary professionals. For more information, visit <http://safetycall.com>.

TABLE 12
Geosyntec Consultants

Geosyntec is a global consulting firm of more than 2,600 employees that works with multinational clients with Global Product Stewardship challenges. Geosyntec helps these clients bring their products to market safely and in compliance with applicable regulations and supply chain requirements. Their product registration, compliance, and safety experts bring a deep knowledge of best practices, as well as nuanced scientific and regulatory understandings, helping ensure chemicals, products and packaging are safe and sustainable from raw-material sourcing and manufacturing through use and disposal. In a time when regulations regarding product and chemical safety are in flux, Geosyntec provides clients with strategies rooted in sound science.

TABLE 13
Microbac Laboratories

Microbac Laboratories, Inc. is a widely recognized premium laboratory that has served the scientific community as a source for independent laboratory testing for over 60 years. Microbac exceeds customer expectations with established industry expertise and capabilities. Microbac offers a variety of premium testing services for the healthcare, pharmaceutical, food, environmental and consumer product industries around the globe. Their familiarity with industry standards, such as ASTM, AOAC, ISO, USP, EN, OECD, and others, allows Microbac to perform a broad range of EPA, FDA, Health Canada, EU, and other international regulatory compliant assays.

Barentz.

Better is shaping future generations.

Achieving *better* demands imagination. It requires innovation. And thrives when true partnerships form. At Barentz, we're constantly reimagining what's possible in life science & specialty performance ingredients. Pushing boundaries, questioning conventions, and collaborating with our partners to overcome today's challenges and unlock

tomorrow's opportunities. For over 70 years, this relentless pursuit of *better* has been at the heart of who we are. It's the not-so-secret ingredient behind our success, and it could be the catalyst for yours too.

Discover *Better* at Barentz-na.com
