

# **HCPA'S 2026 MID-YEAR MEETING**

**INDUSTRY REALITIES, STRATEGIC RESPONSES**

**DIGITAL EVENT PROGRAM**

**May 12-14, 2026**  
**The Capital Hilton, Washington, D.C.**

# GENERAL EVENT INFORMATION

SCAN TO DOWNLOAD  
HCPA'S MOBILE MEETING APP

## Mobile Meeting App

If you have not already done so, please download the mobile meeting app to find the most current schedule, session handouts, exhibitor information, and connect with other attendees.

You can also share your experiences from the 2026 HCPA Mid-Year Meeting on social media using the hashtag, #HCPAMYM2026, and tagging HCPA.

## Board of Directors Meeting

This year's Board of Directors meeting will be on Tuesday, May 12 from 8:00 am - 12:00 pm in the **Federal** room. Please note there is an Executive Session at 8:00 - 10:00 am for Board members only. The meeting will open to other attendees at 10:15 am.

## Registration Hours

Everyone attending the HCPA Mid-Year Meeting must register. This includes all members, speakers, and media representatives. The HCPA Registration Desk is located in the **Capital Terrace** on the second floor, and will be open:  
**Monday 2:00 – 6:00 pm | Tuesday 8:00 am – 5:30 pm | Wednesday 8:00 am – 5:00 pm | Thursday 8:00 am - 1:00 pm**

## Badges and Attendance Policy

The Mid-Year Meeting is open to registered attendees only. Badges will be issued at the HCPA Registration Desk and are required at all HCPA-sponsored sessions and social events.

## HCPA Staff Office

The HCPA staff office is located in the **Continental** room on the 2nd floor. We invite you to stop by to say hello or have any questions answered. We are here to help you get the most from your Mid-Year Meeting!

Office hours are:

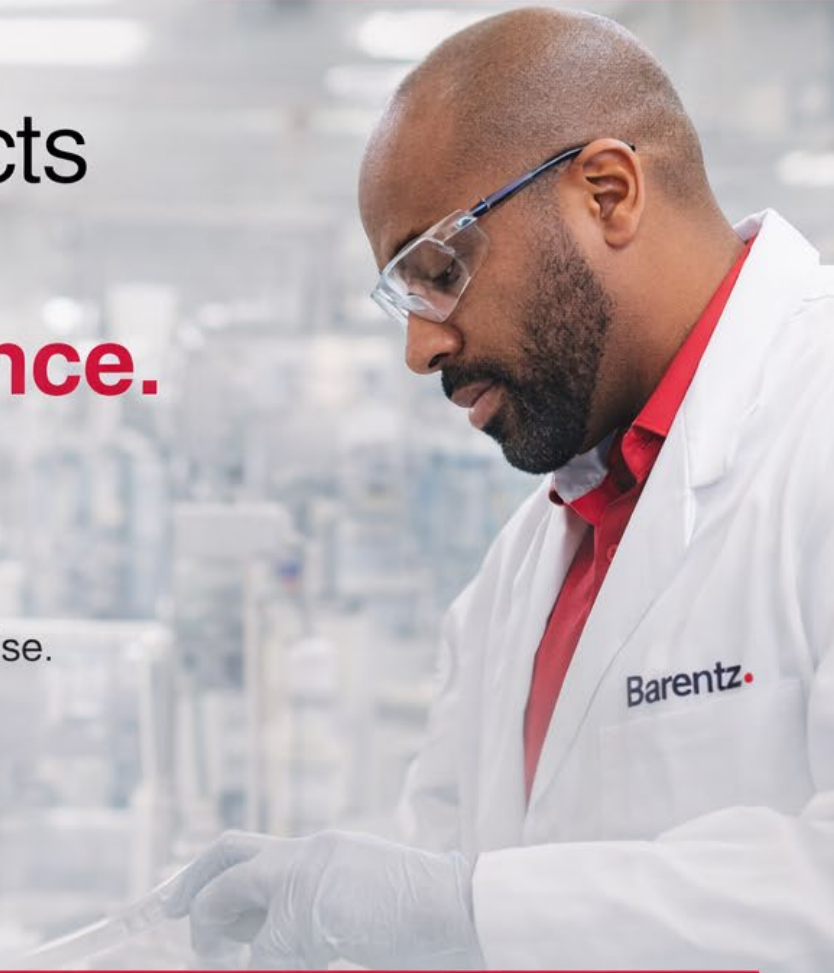

**Monday 2:00 – 6:00 pm | Tuesday 8:00 am – 5:30 pm | Wednesday 8:00 am – 5:00 pm | Thursday 8:00 am - 1:00 pm**

**Barentz.**

**BARENTZ  
UNIVERSITY**

*Better* products  
start with  
**better guidance.**

Barentz is the partner HCPA companies trust for continuous learning, regulatory compliance support, and formulation expertise.

**Barentz University**

Practical training, market insight, and application knowledge that help your teams make faster, smarter decisions.

**Product Formulation**

Technical support that helps customers solve formulation challenges, optimize performance, and accelerate development.

**Regulatory Compliance**

Guidance that helps navigate regulatory complexity with greater confidence, clarity, and speed to market.

**One partner. Three advantages.**

From education to execution, Barentz helps customers stay informed, formulate with confidence, and move through compliance requirements more effectively.

# HCPA 2026 BOARD OFFICERS

CHAIR

**LISA PANKIEWICZ**  
The Clorox Company

FIRST VICE CHAIR

**WILLIAM SCHALITZ**  
Spartan Chemical Company

SECOND VICE CHAIR

**MICHELLE RUDNICK**  
CRC Industries, Inc.

TREASURER

**JOEL BURDICK, Ph.D.**  
Bath & Body Works

IMMEDIATE PAST  
CHAIR

**CATHERINE TRINKLE**  
BASF Corporation

# BOARD OF DIRECTORS

**Greg Adamson, Ph.D., Givaudan Fragrances Corporation** | SVP, Global Regulatory Affairs, Product Safety and Sustainability  
**Bart Bastian, Spray Products Corporation** | President & CEO  
**Stephanie Blakely, Symrise** | VP, Global Regulatory Services & Compliance Scent & Care Division  
**Kerry Blissett, Firmenich** | Head of Regulatory Affairs P&B  
**Tim Botts, Ecolab** | VP, North America - Global Regulatory Affairs  
**David Burks, Diversified CPC International, Inc.** | President & CEO  
**Alexandria Celesky, Sherwin-Williams** | Director of Product Stewardship  
**Shardona Daneshvari, International Flavors and Fragrances** | VP, Regional General Manager NOAM Consumer Fragrances  
**Lisa Dreilinger, Arxada** | Global Head of Regulatory, Consumer Microbial Control  
**Art Esposito, Church & Dwight Co., Inc.** | Director, Global Product Stewardship and Sustainability  
**Adriano Galimberti, Stepan Company** | VP & General Manager, NA  
**Jamey Gaston, Midlab** | VP of Quality, Science, and Regulatory  
**Brian Herrington, The Scotts Miracle-Gro Company** | President, SMG Foundation & VP External Affairs  
**Ted Head, McLaughlin Gormley King Co.** | Director of Regulatory Affairs  
**Julia Kim, Reckitt** | VP, Regulatory Affairs and Safety for North America  
**Meghan Lieb, Ph.D., WD-40** | VP, Global Research & Development  
**Jaime McKinley, W.F. Young, Inc.** | President  
**Tonya Morris, Nelson Laboratories LLC** | Global Segment Director of Antimicrobials, Disinfectants and Virus Studies  
**Rafael Ortiz, CLR Brands** | CTO  
**Chris Pearce, SC Johnson** | Senior Director, Global Government Relations  
**Michael Pfefferkorn, United Industries Corporation** | Division VP and General Counsel  
**Kevin Rejent, Energizer Holdings, Inc.** | Senior Counsel-Regulatory & Head of Government Affairs  
**Darius Sabaliunas, The Procter & Gamble Company** | VP, Global Product Stewardship

## PRODUCT DIVISION CHAIRS

### ADVISORS TO THE BOARD

#### Aerosol Products Division

Kevin Verville, Summit Packaging

#### Air Care Products Division

Harman Singh, International Flavors and Fragrances

#### Antimicrobial Products Division

Teresa Moore, The Procter & Gamble Company

#### Cleaning Products Division

Maggie Gottardi, State Industrial Products

#### Floor Care Products Division

Dan Pfister, Hillyard Industries, Inc.

#### Industrial & Automotive Products Division

Allyson Azar, Energizer Holdings, Inc.

#### Pest Management Products Division

Kim Nemeth, The Procter & Gamble Company

# GENERAL SESSION

## GENERAL SESSION WITH LUNCH AND KEYNOTE PRESENTATION **TUESDAY, MAY 12**

12:00 - 1:30 pm - Presidential Ballroom

### Keynote **Chris Cassidy**

U.S. Navy SEAL, NASA Astronaut

Captain Christopher J. Cassidy, USN (Ret.) is a decorated Navy SEAL, accomplished NASA astronaut, and national civic leader whose career spans elite military operations, pioneering space exploration, and institution-building of lasting significance.

CAPT Cassidy's talks explore the habits of effective leaders and how they can motivate their teams to overcome the obstacles in front of them, foster a high-performing culture of trust, and thrive in clutch moments when everything is on the line. With a talent for storytelling and well-timed humor, he shares his inspiring journey from the U.S. Naval Academy to becoming NASA's 15th Chief Astronaut — motivating audiences to develop a never-quit mindset to accomplish their goals, and help others along the way.

Cassidy served 11 years in the SEAL Teams before his selection as a NASA astronaut in 2004. A combat-proven leader, he graduated as Honor Man of BUD/S Class 192 and earned two Bronze Stars—including one with Combat "V"—as well as a Presidential Unit Citation for commanding a high-profile mission along the Afghanistan–Pakistan border in the aftermath of 9/11. His military decorations also include the Defense Distinguished Service Medal, Defense Superior Service Medal, and Legion of Merit, recognizing exceptional leadership at the highest levels of joint and naval service.

# PRIORITY SESSIONS

## MONDAY, MAY 11

12:30 - 5:00 pm | Off-Site Facility

### Montgomery Recycling Center Tour

*\*Pre-Registration Required*

4:00 - 5:00 pm | North Gate Grill

### First-Time Attendee Reception

*\*By Invitation Only*

5:00 - 6:00 pm | Capital Terrace

### Welcome Reception

Sponsored by **The Procter & Gamble Company**

Kick off the Mid-Year Meeting in the Capital Terrace at the Capital Hilton as we celebrate 250 years of American innovation and progress. Sponsored by Procter & Gamble, enjoy good food and drinks and meaningful networking as we launch a week focused on exploring industry realities and strategic responses.

## TUESDAY, MAY 12

8:00 - 9:00 am | Capital Terrace

### Networking Grab & Go Breakfast

Sponsored by **Bergeson & Campbell**

8:00 am - 12:00 pm | Federal

### Board of Directors Meeting (Closed Session)

Please note there is an Executive Session at 8:00 - 10:00 am for Board members only. The meeting will open to other attendees at 10:15 am.

## TUESDAY, MAY 12

8:30 -10:30 am | Congressional

### Joint Cleaning & Floor Care Products Division Program

#### *Insights and Innovations in Cleaning and Floor Care Products*

This dynamic two-part session, tailored for the Cleaning and Floor Care Products Divisions, is designed to equip attendees with essential insights into current market trends and certification developments.

#### **Part 1: Market Forces Shaping the Industry**

This segment will delve into the key market forces influencing purchasing decisions, product innovation, and brand positioning within the cleaning and floor care categories. By exploring future scenarios, this presentation will examine how emerging technologies may reshape these categories over the next decade. Attendees will gain valuable, data-driven insights into:

- **Sustainability Expectations:** Understanding consumer demands for eco-friendly products.
- **Ingredient Transparency:** The growing importance of clear labeling.
- **Third-Party Certifications and Ratings:** Navigating the landscape of trusted endorsements.
- **Technology-Enabled Purchasing:** How digital tools are reshaping consumer behavior.
- **Retailer Dynamics:** Insights into partnerships and retail strategies.
- **Emerging Regulatory Influences:** Staying ahead of compliance changes.

Speaker:

- **Jamie Rosenberg**, Principal Strategist, Global Research and Insights, Mintel

#### **Part 2: EWG Verified Cleaners Standard Updates**

The second part of this program will focus on exciting updates to the Environmental Working Group's (EWG) Verified cleaners standard. Featuring a discussion on a logo refresh aimed at enhancing communication around safer chemistry to retailers, consumers, and purchasers, key points will include:

- **Program Changes:** Overview of planned updates and enhancements.
- **Feedback Opportunity:** Attendees will have the chance to provide input on proposed standards and logos.
- **Consumer Engagement:** With more than 31 million online supporters, EWG serves as a trusted resource for guidance on safer chemistry.
- **Partnerships and Initiatives:** Learn how the EWG Verified program collaborates with companies to promote safer products through various channels.

Speakers:

- **Clive Davies**, Vice President, EWG Verified®
- **Lauren Duffy**, Senior Director, EWG Verified®
- **Taylor Dunivin**, Director of Science Communication, EWG Verified®

This session is ideal for brands, manufacturers, and retailers looking to navigate the evolving landscape of certification programs and seize opportunities for promoting safer, more sustainable products.

## TUESDAY, MAY 12

9:00 - 11:30 am | Senate

### Aerosol Products Division Program

This session will explore key topics impacting the aerosol products industry, ranging from innovation to end-of-life considerations. Attendees will hear from regulatory officials at the Department of Transportation's (DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA) and the EPA's Chemicals, Coatings, and Products Division.

Speakers:

- **Steven Andrews**, Acting Senior Regulations Officer, PHMSA, DOT
- **Don Burger**, Director of the Special Permits Program, PHMSA, DOT
- **Brian Houston**, General Manager Foam, Aerosol & Solvents, Solstice Advanced Materials
- **Sami Ki**, Senior Manager, Sustainability & Product Stewardship, HCPA
- **Allison Lim**, Innovation Analyst, RTI International
- **Cindy Newberg**, Division Director, Office of Air and Radiation, EPA
- **Manon Pascal**, Regulatory Affairs Manager, Lindal North America
- **Jim Topich**, Chief Innovation Officer, Kinetic Vision

10:30 am - 12:00 pm | Congressional

### Joint Air Care & Cleaning Products Division Program

*Fragrance & the Modern Consumer: Safety, Science, and Social Media*

This session will examine how evolving science, regulatory pressure, and consumer perspectives are reshaping product development and post-market risk management, with a focus on fragrance.

As volatile organic compound (VOC) regulations continue to tighten across North America, manufacturers and fragrance houses are moving beyond ethanol- and propellant-dependent delivery systems toward fundamentally new fragrance architectures that preserve performance while reducing or eliminating VOC use and enabling new product formats and portfolio differentiation.

The session will then turn to a timely discussion on post-market surveillance in the age of social media where viral trends can transform isolated misuse patterns into widespread public health concerns overnight. Attendees will walk away with critical intake questions and best practices for adverse event documentation.

The session will close with a joint exploration of fragrance safety in consumer products, highlighting new research from the Research Institute for Fragrance Materials (RIFM) and how it is reaching consumers through educational media. Attendees will also participate in a demonstration illustrating real-world exposure to fragrance ingredients in scented products.

Speakers:

- **Danielle Botelho**, Director of Scientific Operations, RIFM
- **Ashley Brown**, Clinical Toxicology Manager and Senior Clinical Toxicologist, SafetyCall International, LLC
- **Alison Sykes**, Innovation Advisor, RTI International

## TUESDAY, MAY 12

1:30 - 2:30 pm | Congressional

### International Affairs Council Program

This program will explore the process of introducing products into the Canadian and Latin American markets. Participants will gain a clear understanding of the key regulatory requirements for bringing both consumer and workplace products into these regions.

Speakers:

- **Kirsten Alcock**, Director of Product Safety, Dell Tech Laboratories
- **Dana Mladin**, Principal Technical Consultant, Dell Tech Laboratories
- **Melissa Owen**, Founder, AMBIENTELEGAL

1:30 - 3:00 pm | Federal

### Pest Management Products Division

**Minimum Risk 25(b) Pesticides**

The regulatory landscape for 25(b) products continues to evolve as the EPA and states grapple with inconsistent approaches to minimum risk pesticides – a reality that creates both compliance challenges and market opportunities. This session will provide an update on the strategic work of the joint HCPA/AAPCO 25(b) Work Group to bring greater clarity and consistency to this space, along with an update from the EPA's Biopesticides and Pollution Prevention Division.

Speaker:

- **Shannon Borges**, Acting Director, Biopesticides and Pollution Prevention Division, EPA

1:30 - 3:00 pm | South American

### Sustainability & Product Stewardship Council Board Meeting (Closed Session)

This is a closed meeting for members of the SPSC Executive Board. Board members will receive the meeting agenda via email.

2:00 - 3:00 pm | Senate

### Industrial & Automotive Products Division Meeting

The Industrial & Automotive Products Division covers products used by consumers and service centers to maintain and protect automobiles, as well as industrial products used in the manufacturing process or to maintain machinery and equipment. This session will explore potential opportunities to reduce hazards in industrial settings, particularly food processing facilities, as well as how Extended Producer Responsibility (EPR) impacts products in this space.

Speakers:

- **John Howell**, Business Development Manager, Novonesis
- **Erin LaCosta**, Project Engineer, Geosyntec Consultants

3:00 - 3:30 pm | Capital Terrace

### Networking Break

Sponsored by **Pilot Chemical Company**

## TUESDAY, MAY 12

3:30 - 4:30 pm | Federal

### Aerosol Products Division Scientific Committee Meeting

The Aerosol Products Division's Scientific Committee develops standards and specifications, participates in relevant research efforts, and explores current and potential aerosol technologies. The Committee also engages with global institutions that impact the storage, trade, and manufacturing of aerosol products to ensure that these practices are safe, effective, and manageable.

3:30 - 4:30 pm | Presidential Ballroom

### Government Relations & Public Policy

*Special Session - Federal Affairs*

This session will highlight HCPA's current federal advocacy efforts and the evolving policy landscape, including major Congressional and Administration actions related to TSCA, EPA appropriations, the Safer Choice Program Authorization Act, PRIA reauthorization, and HCPA's strategy for engaging policymakers on behalf of the industry. Members will leave with a clearer understanding of the federal issues most likely to affect business operations, innovation, product regulation, and market access in the year ahead.

3:30 - 5:00 pm | Senate

### Floor Care Products Division Meeting

*Beyond What You Can See: Quantifying Clean with XRF Technology*

The Floor Care Products Division meeting will open with a special interactive presentation from Lee Phillips of Professional Testing Laboratory, the lab of record behind the carpet industry's leading Seal of Approval program administered by the Carpet and Rug Institute. Lee will introduce attendees to the latest advancements in proprietary XRF technology, which enables a precise, quantitative measurement of cleaning effectiveness – moving beyond traditional visual assessments to data-driven performance insights.

Building on its success in the carpet and rug sector, Professional Testing Laboratory is expanding this technology into a new certification program for hard surfaces, including LVT, LVP, laminates, and more. Through real-world examples and audience discussion, Lee will explore common challenges observed in the field across substrates, equipment, and cleaning solutions and how this next-generation testing approach can support innovation from early-stage R&D to substantiating product performance claims in the marketplace.

Following this special presentation, the meeting will transition to regular Floor Care Products Division business, bringing together formulators, suppliers, distributors, and consultants committed to advancing the technical performance and safety of floor care products. Attendees will have the opportunity to engage in discussions that shape the Division's priorities and future direction, as well as receive an update on ongoing activity by the California Air Resources Board (CARB) by Doug Raymond of Raymond Regulatory Resources (3R).

Speakers:

- **Lee Phillips**, Laboratory Director, Professional Testing Labs
- **Doug Raymond**, President, 3R

## TUESDAY, MAY 12

3:30 - 5:30 pm | Congressional

### Antimicrobial Products Division Program

#### *FIFRA Enforcement: E-Commerce, Trends, and Lessons Learned*

Building on the foundation established at the HCPA Annual Meeting session, *FIFRA Enforcement in Focus: Navigating Oversight in a Changing Regulatory Landscape*, this session will take a deeper dive into the evolving enforcement environment for products regulated under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). With continued scrutiny at U.S. borders, shifting regulatory priorities, and the rapid expansion of e-commerce, companies face a more complex compliance landscape than ever before.

The session will examine how enforcement authorities are adapting their strategies to address emerging risks across both traditional and online sales channels, and experts will draw on case studies involving e-commerce and other enforcement actions to offer practical, real-world compliance lessons.

Topics will include how to identify whether an enforcement action is legitimate; how enforcement scrutiny differs depending on whether a chemical enters commerce as a pesticide or a different substance; the role of AI tools in modern enforcement activities; and how states are operating under the cooperative agreement framework, especially as negotiations for Fiscal Year 2026 and beyond remain ongoing.

The session will also cover inter-regional enforcement coordination, including how states collaborate with the EPA and other states to achieve compliance, as well as the range of tools available to state enforcement programs.

Participants will leave with actionable insights for navigating this increasingly complex regulatory environment.

Speaker:

- **Michael Boucher**, Partner, Steptoe
- **Dave Huber**, Deputy Director, Division of Plant Industry at the Vermont Agency of Agriculture, Food & Markets

4:30 - 5:30 pm | Federal

### Aerosol Products Division Membership Committee Meeting

The Membership Committee plans and executes programming for the Aerosol Products Division, maintains and improves the engagement of aerosol members, and recruits new aerosol or aerosol-adjacent companies to join HCPA.

5:00 - 5:30 pm | Senate

### Floor Care Products Division Executive Board Meeting (Closed Session)

Immediately following the Division meeting, the Floor Care Products Division Executive Board will convene for a closed meeting to discuss governance, strategic priorities, and next steps for the Division. Attendance is limited to Board members.

## WEDNESDAY, MAY 13

8:00 - 9:00 am | Capital Terrace

### Networking Grab & Go Breakfast

Sponsored by **Bergeson & Campbell**

8:30 - 10:00 am | Federal

### Aerosol Products Division Regulatory Committee Meeting

The Aerosol Products Division's Regulatory Committee develops and advances policies that promote and protect the safe and effective use of aerosol products. The Regulatory Committee engages with federal and state legislators and global stakeholders to promote trade, harmonize laws, and ensure that regulations are consistent. The Regulatory Committee also works to minimize potential disruptions throughout the supply chain and improve the sustainability of aerosol products.

8:30 - 10:00 am | South American

### Air Care Products Division Meeting

The Air Care Products Division focuses on products designed to enhance or condition the indoor environment by combating unpleasant odors, freshening the air, or removing airborne particles. This session will bring together fragrance and other ingredient suppliers, manufacturers, and marketers of air care products to provide an update on and discuss key Division issues and initiatives.

8:30 - 10:00 am | Senate

### Regulatory Affairs Council

Two powerful regulatory forces – the Consumer Product Safety Commission (CPSC) and FIFRA – are reshaping the compliance landscape for CPG companies. CPSC has shifted its enforcement priorities in ways that have led to high-profile cases and introduced new risks, while the Supreme Court's upcoming review of *Monsanto v. Durnell* could fundamentally reshape the FIFRA preemption framework on which the industry has long relied. This session will provide attendees with a clear assessment of both developments and practical strategies for minimizing exposure.

**CPSC Enforcement** - This presentation will focus on recent changes in the enforcement priorities by the CPSC. These changes have led to some recent high-profile cases making the news, and this session will provide recommendations to companies to minimize their compliance risks.

Speakers:

- **Neal Cohen**, Partner, Neal Cohen LLC
- **Boaz Green**, Partner, Neal Cohen LLC

**FIFRA Preemption** - This presentation will focus on FIFRA preemption and the implications of the *Monsanto v. Durnell* case, which will be heard by the United States Supreme Court in late April 2026. The outcome of this case could have significant implications on FIFRA products.

Speaker:

- **Shannen Coffin**, Partner, Steptoe

## WEDNESDAY, MAY 13

8:30 - 10:00 am | Congressional

### Antimicrobial Products Division Regulatory Committee Meeting

During this session, EPA's Antimicrobials Division (AD) will provide an update on the Division's latest activities, including priorities and staffing updates. This session will also include an interactive discussion with EPA AD staff about the Emerging Viral Pathogen (EVP) program for antimicrobial pesticides.

Speaker:

- **Tajah Blackburn**, Senior Scientist, EPA AD Efficacy Branch
- **Elizabeth Donovan**, Associate Director, Office of Pesticide Programs, Antimicrobials Division, EPA
- **Kristen Willis**, Acting EPA AD Director
- **Tiffany Yelverton**, Senior Scientist Advisor, EPA

10:00 - 10:30 am | Capital Terrace

### Networking Break

Sponsored by **Bath & Body Works**

10:00 - 10:30 am | Senate

### Coffee Chat with RLG

Grab some coffee and refreshments and join Reverse Logistics Group (RLG) to discuss EPR solutions. Discover how RLG's global teams are helping producers by simplifying the EPR compliance process, and how they're supporting PROs with planning, operations, and tech to enable EPR programs. As part of the Reconomy family of brands, RLG is building the circular economy across the entire return logistics supply chain. This is an exclusive opportunity to meet their experts and learn more!

10:30 am - 12:00 pm | Federal

### Air Quality Council Meeting

During this session, the Air Quality Council will prepare for the California Air Resources Board's (CARB) next consumer products rulemaking, including the transition to Maximum Incremental Reactivity (MIR). The Council will also discuss VOC activity across the U.S., Canada, and Mexico, as well as ongoing work by the EPA.

## WEDNESDAY, MAY 13

10:30 am – 12:00 pm | Congressional

### Antimicrobial Products Division Meeting - AEG

During this session, EPA's Biological and Economic Analysis Division (BEAD) will provide an update on the Division's latest activities, including priorities, test method development updates, and outreach efforts. This session will also include an interactive working session with BEAD staff for deep dive discussions on topics of interest to attendees.

Speakers:

- **Rebecca Pines**, Branch Chief, EPA OPP BEAD, Microbiology Laboratory Branch
- **Yaorong Qian**, Senior Scientist, EPA OPP BEAD, Analytical Chemistry Branch
- **Donald Wilbur**, Director, EPA Office of Pesticide Programs (OPP), BEAD
- **Steve Zhou**, Senior Scientist, EPA OPP BEAD, Microbiology Laboratory Branch

10:30 am – 12:00 pm | South American

### Government Relations & Public Policy

**Special Session - TSCA**

During this session, Dr. Rich Engler and Ryan Schmit from Bergeson & Campbell will discuss all things TSCA. Key to the conversation will be EPA regulatory developments, major litigation affecting TSCA implementation, business critical changes impacting the protection of confidential business information, and the latest legislative activity in Congress. This 90-minute session will help attendees better understand what is changing across the regulatory, legal, and policy landscapes, what those developments could mean for product innovation and market access, and where HCPA's advocacy priorities may head for the balance of 2026.

Speakers:

- **Rich Engler**, Director of Chemistry, Bergeson & Campbell
- **Ryan Schmit**, Of Counsel, Bergeson & Campbell

12:00 - 1:00 pm | Presidential Ballroom

### Lunch with EPA Assistant Administrator Douglas Troutman

Sponsored by **Reckitt**

Join Douglas Troutman, Assistant Administrator for the Environmental Protection Agency's (EPA) Office of Chemical Safety & Pollution Prevention (OCSPP), for a timely discussion on the Administration's priorities for regulating chemical products and improving regulatory outcomes. This session will offer attendees valuable insight into current developments related to TSCA and PRIA, as well as the broader direction of federal chemical policy. This is a unique opportunity for attendees to hear directly from one of the EPA's top leaders on key regulatory issues affecting household and commercial product manufacturers, suppliers, and marketers, including time for Q&A.

Speaker:

**Douglas Troutman**, Assistant Administrator, OCSPP, EPA

## WEDNESDAY, MAY 13

1:00 - 2:30 pm | Congressional

### Joint Government Relations & Public Policy and Sustainability & Product Stewardship Council

*Special Session - EPR*

#### EPR Readiness: Legal, Retail, and Industry Perspectives

As EPR policies expand across the U.S. and globally, companies are navigating an increasingly complex and fragmented regulatory landscape. This session will bring together legal, retail, and industry perspectives to explore the key forces shaping EPR implementation and compliance. Experts will discuss emerging legal challenges, evolving retailer expectations, and the growing need for more strategic, coordinated approaches to packaging decisions.

This session will specifically highlight how organizations are approaching EPR more holistically, aligning compliance, cost, and operational considerations across markets. Attendees will leave with a clearer understanding of the risks, tradeoffs, and opportunities shaping packaging and sustainability strategies in an EPR-driven world.

Moderator:

- **Michael Washburn**, Principal, Washburn Consulting: Sustainability & Public Affairs

Speakers:

- **Michael Boucher**, Partner, Steptoe
- **Colin Preston**, Managing Consultant, Ramboll
- **Allie Sauers**, Senior Director, Legal & Regulatory Affairs, Retail Industry Leaders Association

1:00 - 3:00 pm | Senate

### Pest Management Products Division Program

State-level regulatory activity is accelerating on multiple fronts, creating an increasingly complex operating environment for pesticide registrants. This session will explore three emerging challenges requiring strategic attention: (1) the implementation of bilingual labeling requirements, (2) preparation for Minnesota's PFAS prohibitions affecting pesticide products, and (3) a broader landscape update from HCPA's state Government Relations & Public Policy team on what lies ahead.

Speaker:

- **Liane Jenkins**, Managing Scientist, Exponent

#### Preparing for PFAS Prohibitions in Minnesota

Speaker:

- **Steve Bennett**, Executive Vice President, Scientific & Regulatory Affairs, HCPA

#### Update from HCPA's State Government Relations & Public Policy Team

Speakers:

- **Christopher Finarelli**, Senior Director, State Government Relations & Public Policy (Western Region), HCPA
- **Michelle Kopa**, Senior Director, State Government Relations & Public Policy (East Region), HCPA

## WEDNESDAY, MAY 13

2:30 – 4:00 pm | Congressional

### Government Relations & Public Policy

*Special Session - State Affairs*

HCPA is increasingly prioritizing state-level engagement, where policy activity is accelerating and often setting the tone for national policy trends. This session will provide a focused, in-depth look at recent policy activity in Vermont and New Hampshire, two states that are emerging as key drivers of policy approaches in important issue areas. This session will provide insights into the overall direction of state policymaking, the motivations behind these proposals, and their implications for broader adoption in other jurisdictions in an overall effort to help members anticipate emerging policy trends, assess business impacts, and effectively communicate and contextualize these trends within their organizations.

Moderator:

- **Mike Gruber**, Chief Operating Officer, HCPA

Speakers:

- **Angela Brennan**, President, a.b. STRATEGIES
- **Allison Crowley**, Owner & Lobbyist, Crowley Consulting

3:00 – 4:00 pm | Federal

### Sustainability & Product Stewardship Council and Connection & Development Network Program

*Defining Product Stewardship: Practical Approaches and Strategic Impact*

A product steward's primary role is to minimize product risk and work toward creating safer, more sustainable products. They are responsible for managing the health, safety, and environmental impacts of a product across its lifecycle. This involves collaborating with key stakeholders from procurement, R&D, regulatory authorities and standardization, hazard communication, and marketing, all the way through end-of-life. Product stewards must anticipate not only compliance risks, but also potential risks to consumers and the environment. Their evolving role is challenged by pressures such as sustainability concerns, shifting scientific knowledge, and the need to address unintentional consequences or product misuse.

This session will provide participants with a foundational understanding of product stewardship, including key definitions and core principles. Board members from the Product Stewardship Society (PSS) will explore how product stewardship can be integrated into business processes, career pathways, and professional growth, while also offering practical examples of stewardship in action.

Speakers:

- **Alison Gauthier**, Managing Scientist, Exponent
- **John Hott**, Client Solution Principal Consultant, Yordas Group
- **Giselle Vincett**, Vice President of North America, Yordas Limited

## WEDNESDAY, MAY 13

3:00 - 4:00 pm | South American

### Aerosol Products Division Meeting

#### Working Session - Fire Codes

Since the 1980s, HCPA has helped develop and maintain both National Fire Protection Association (NFPA) and international fire and building codes that allow aerosols to be manufactured, distributed, stored in warehouses, and placed on retailer shelves. HCPA uses sound science to ensure that its positions are credible and compelling to fire officials, insurers, and fire engineering professionals who manage the nation's complex system of fire and building codes. During this working session, attendees will discuss the latest developments related to aerosol fire codes and help set the direction for future advocacy and technical positions.

3:00 - 5:00 pm | Senate

### Cleaning Products Division Program

This session will bring together raw material suppliers, manufacturers, and marketers of household and professional cleaning and care products. Attendees will have the opportunity to engage in discussions that shape the Cleaning Products Division's priorities and future direction, as well as hear an update on ongoing activity by CARB.

Speaker:

- **Doug Raymond**, President, 3R

4:00 - 4:30 pm | South American

### Air Care Products Division Executive Board Meeting (Closed Session)

The Executive Board provides strategic direction and oversees the activities of the Air Care Products Division. This session will discuss strategic priorities, key focus areas, and initiatives.

4:00 - 5:00 pm | Congressional

### Special Session: Lessons from the Field

#### *Best Practices for AI in Regulatory Work sponsored by the Connection & Development Network*

AI is no longer on the horizon – it's an operational reality reshaping how regulatory work gets done. However, adoption without a clear strategy risks undermining the expertise and accountability on which our industry depends.

This capstone panel will bring together regulatory professionals and AI practitioners to share lessons learned, common pitfalls, and practical strategies for integrating AI into regulatory workflows effectively and responsibly. Audience participation and discussion will be encouraged. Audience participation and discussion will be encouraged.

Speakers:

- **Kirill Ivanov**, Co-Founder and COO, GetGenAI
- **Jennifer Stafford**, Principal Consultant, Compliance Services International (CSI)
- **Charlie Vallely**, CEO and Co-Founder, Smarter Sorting

## WEDNESDAY, MAY 13

5:15 - 6:30 pm | Presidential Ballroom

### Closing Party - Keys & Cocktails

Sponsored by **Spartan Chemical**

Join us in the Presidential Ballroom at the Capital Hilton for an evening of live music, delicious drinks, and an engaging atmosphere where business meets entertainment.

Sponsored by Spartan Chemical Company, this lively reception will offer the perfect opportunity to connect with colleagues, unwind after a productive week, and enjoy a high-energy dueling piano performance. Bring your song requests and get ready for a memorable night of music and connection.

## THURSDAY, MAY 14

8:00 - 9:00 am | Presidential Ballroom

### Special Session with Breakfast

Sponsored by **Bergeson & Campbell**

Keynote Speaker:

**Brody Mullins**, Nationally Acclaimed Investigative Reporter on Business and Government

Brody Mullins is a Pulitzer Prize-winning investigative reporter and author of *The Wolves of K Street: The Secret History of How Big Money Took over Big Government*. The book, published by Simon & Schuster, is the definitive account of the rise of corporate power and lobbying in government. His next book, *The Battle Over Bigness*, documents how Donald Trump is teaming up with populist Republicans and progressive Democrats to rein in industries from Big Tech to Wall Street while threatening to unravel the pro-business alliance that had existed in Washington from Ronald Reagan until now.

In two decades as an investigative reporter for *The Wall Street Journal*, Brody wrote scores of ground-breaking stories about the intersection of business and politics, exposing scandals that prompted new laws and regulations for powerful government officials, lobbyists, and Wall Street.

9:30 - 10:45 am | Senate

### Antimicrobial Products Division Meeting

**Working Session**

This working session offers members an opportunity to take a deep dive into a topic of strategic interest to the Antimicrobial Products Division. These sessions typically produce a tangible work product that can be leveraged by both the Division and HCPA in future advocacy efforts to support the continued growth and success of the sector.

## THURSDAY, MAY 14

9:30 - 11:00 am | Congressional

### Sustainability & Product Stewardship Council Meeting

#### Credibility, Certifications & Claims Task Force

This first session will explore emerging leadership in sustainable product standards and real-world innovation in safer chemistry.

#### *From Market Challenges to Leadership: Green Seal's Path for Sustainable Products*

Part one of this session will highlight Green Seal's initiative to align retailers, brands, and advocates around a shared definition of sustainability leadership for everyday products – bringing greater clarity, consistency, and credibility to a rapidly evolving marketplace. Participants will receive an overview of key product leadership elements identified to date, including safer chemicals, responsible sourcing, low-impact manufacturing, and sustainable packaging. Doug Gatlin, CEO of Green Seal, will share the vision and direction of this work, joined by Steering Committee members offering cross-sector perspectives and insights into the considerations shaping criteria development.

Speakers:

- **Elizabeth Arredondo**, Sustainability Manager, Henkel Consumer Brands and Co-chair, Green Seal Safer Chemicals Subcommittee
- **Kira Austin**, Sustainable Sourcing Manager, Aramark & Avendra International and Co-chair, Green Seal Responsible Sourcing Subcommittee
- **Lisa Dreilinger**, Global Head of Regulatory, Consumer Microbial Control, Arxada and Co-chair, Green Seal Verified Performance & Claims Subcommittee
- **Doug Gatlin**, CEO, Green Seal
- **Gayatri Keskar**, Global Packaging Material Science Leader, Kenvue and Co-chair, Green Seal Sustainable Packaging Subcommittee

#### *Behind the Claims: Member Journeys*

Part two of this session will bring these concepts to life through a case study from Midlab, one of the first companies to achieve Green Seal certification for floor care products formulated without intentionally added PFAS. Attendees will learn what motivates the company to pursue different certifications, outline the process and challenges for achieving them, and discuss the value they deliver – from product performance and market differentiation to advancing safer chemistry.

Attendees will leave with a better understanding of where product sustainability standards are heading and how organizations can respond with credible, high-impact strategies.

Speaker:

- **Jamey Gaston**, VP of Quality, Science, & Regulatory, Midlab Inc.

## THURSDAY, MAY 14

9:30 – 11:00 am | South American

### Scientific Affairs Council

From Proposition 65 (Prop 65) listings to an increasingly fragmented patchwork of state PFAS regulations, the compliance landscape facing manufacturers has never been more complex – or more consequential. This session will address both realities head-on:

**California's Prop 65** remains a persistent strategic challenge. This presentation will examine the current landscape, including chemical listings, safe harbor level development, strategies for minimizing the impact of new listings, customer communication, due diligence considerations for corporate transactions, and approaches to defending against citizen suits and government enforcement.

Speakers:

- **Hunter Kendrick**, Counsel, Latham & Watkins LLP
- **Tom Lee**, Partner, Latham & Watkins LLP

### Navigating the PFAS Regulatory Maze: State-by-State Compliance Strategies and Litigation Risk Management

State-level PFAS regulation continues to evolve into a complex patchwork of labeling, reporting, and product prohibition requirements, with staggered effective dates across multiple jurisdictions. This presentation will provide a strategic framework for navigating this environment – from integrating PFAS restrictions into corporate phase-out strategies, to managing litigation risks associated with legacy products on retail shelves, to building cohesive, multi-state compliance programs that balance regulatory obligations with business continuity.

Speakers:

- **Darci Ferrer**, Assistant Director, Greenberg Traurig LLP
- **Kaitlyn Maxwell**, Shareholder, Greenberg Traurig LLP

9:45 – 11:15 am | Federal

### Aerosol Products Division Executive Board Meeting

The Executive Board oversees the activity of the Aerosol Products Division and discusses strategies for advancing and protecting the industry.

11:00 am – 12:00 pm | Congressional

### Joint Sustainability and Product Stewardship Council and International Affairs Council Program

#### *Global EPR Compliance: Unpacking the Overlap Between the EU's PPWR and California's SB 54*

For companies operating across multiple jurisdictions, changes made to meet one set of requirements can have unintended impacts elsewhere, or lead to opportunities to streamline. This session will examine areas where the EU's 2024 Packaging and Packaging Waste Regulation (PPWR) and California's EPR law for packaging, SB 54, align and differ. The session will also cover how stronger data management can simplify compliance across jurisdictions, providing attendees with practical strategies for centralizing packaging data, improving reporting readiness, and building scalable compliance processes that can keep pace with expanding regulations.

Speakers:

- **Joseph Dages**, Partner, Steptoe
- **Tina Nguyen**, Business Development Manager, RLG

## THURSDAY, MAY 14

11:00 am – 12:00 pm | Senate

### Antimicrobial Products Division Executive Board Meeting (Closed Session)

The Executive Board oversees the activities of the Antimicrobial Products Division and focuses on strategies to advance and protect the antimicrobial products industry. This session will cover key initiatives, industry challenges, and strategic priorities to ensure the continued growth and success of the sector.

11:15 am – 12:45 pm | South American

### Pest Management Products Division Committee Meeting

As the EPA's Registration Division navigates resource constraints and shifting priorities, staying aligned with the Agency's direction is critical for effective registration strategy. This session will feature an update directly from the Registration Division, as well as a report on HCPA's Pest Management Products Division activities and strategic priorities.

Speaker:

- **Billy Smith**, Director, Registration Division, EPA

12:00 - 1:15 pm | Presidential Ballroom

### Grab & Go Lunch

Sponsored by **Reckitt**

12:30 – 5:00 pm | Capitol Hill

### Advocacy Day on Capitol Hill

This is your opportunity to translate what your company is experiencing in the marketplace into concrete, real-world insights that Congressional offices rely on when shaping legislation and setting appropriations priorities.

You'll meet directly with members and staff to make the business case for:

- A faster, more predictable TSCA New Chemicals program that supports innovation, investment, and timely market entry, without sacrificing safety.
- A durable, credible Safer Choice program that helps consumers identify safer products and allows companies to compete on transparency and trust.
- Adequate appropriations for the EPA's Office of Pesticide Programs to ensure that registration and review processes keep pace with scientific advancements, prevent unnecessary backlogs, and provide greater regulatory certainty.

# EXHIBITORS

## TABLE 2 Eurofins

Global leader in Testing for Life. Local service and support accessing global safety, quality and regulatory knowledge, expertise and testing capabilities across 950+ locations in 60 countries. Comprehensive solutions including regulatory, analytical, VOC, toxicological, microbiological, ecotoxicity, biodegradability, registrations, in vitro and in vivo clinical studies, stability/compatibility, claims substantiation, sustainability services, and more.

## TABLE 3 Bergeson & Campbell

Bergeson & Campbell, P.C. (B&C®) is a Washington D.C. law firm focusing on chemical product approval and regulation, product defense, and associated business issues. The Acta Group (Acta®), B&C's scientific and regulatory consulting affiliate, provides strategic, comprehensive support for global chemical registration, regulation, and sustained compliance. Together, we help companies that make and use chemicals commercialize their products, maintain compliance, and gain competitive advantage as they market their products globally.

## TABLE 4 SRC Consultants

SRC is a full-service regulatory consulting firm for the antimicrobial and pesticide industry. With over 250 years of combined experience, they have the expertise to assist you with any part of the registration process from R&D to retail. Make sure you connect with the team to learn more about SRC's Canadian registration services! For more information regarding the team and their specialties, visit <https://srcconsultants.com>

## TABLE 5 RMT Global

RMT Global is a leading international provider of risk, safety, and compliance technology solutions that empower organizations to make informed decisions and operate responsibly in today's complex regulatory landscape. With more than 30 years of industry experience, RMT Global delivers trusted data, software, and insights that help businesses strengthen governance, manage chemical and operational risks, and create safer, smarter, and more sustainable workplaces. Its suite of advanced solutions, including the globally respected ChemAlert platform, combines scientific expertise with innovative technology to protect people, support compliance, and drive long-term value for clients worldwide. RMT Global is recognized for its commitment to integrity, innovation, and customer-centric service.

## TABLE 6 Reverse Logistics Group (RLG)

In an era of accelerating change, Exponent is the only premium engineering and scientific consulting firm with the depth and breadth of expertise to solve our clients' most profoundly unique, unprecedented, and urgent challenges. Exponent brings together 90+ technical disciplines and 950+ consultants to help our clients navigate the increasing complexity of more than a dozen industries, connecting decades of pioneering work in failure analysis to develop solutions for a safer, healthier, more sustainable world.

# EXHIBITORS

## TABLE 7

### CERIS at Purdue University

The Center for Environmental and Regulatory Information Systems (CERIS) is a center within the Entomology Department at Purdue University. It is home to a collection of databases of information on pesticides, plant export/import requirements, and exotic pest tracking. Data is principally received from EPA, USDA, and United States state agencies.

## TABLE 8

### Element Eagan

Element Eagan is the premier contract antimicrobial testing laboratory and expert partner to the developers, manufacturers and users of antimicrobial pesticide and biocide products. We have more than 30 years of experience generating ISO and GLP-compliant data that is accepted by U.S. EPA, FDA, and other International regulatory bodies.

## TABLE 9

### Exponent

Exponent brings together 90+ technical disciplines and 950+ consultants to help our clients navigate the increasing complexity of more than a dozen industries, connecting decades of pioneering work in failure analysis to develop solutions for a safer, healthier, more sustainable world.

## TABLE 10

### SafetyCall International

SafetyCall International operates the world's largest 24/7 human and animal adverse event call center, providing clients and their customers with immediate, around-the-clock access to trusted health, safety and medical information. Its structure as a multidisciplinary health care practice provides manufacturers with adverse event management, regulatory reporting, post-market surveillance, and consulting services. As nationally recognized experts in the collection and interpretation of spontaneously reported incident data, the professional staff has managed more than 4 million product incident cases in the past 40 years, significantly impacting product safety worldwide. SafetyCall® also operates Pet Poison Helpline, a 24/7 animal poison control service for pet owners and veterinary professionals. For more information, visit <http://safetycall.com>.

## TABLE 11

### Container Specialties

Container Specialties, Inc. is a blow-molding company that manufactures several different sizes of HDPE plastic containers for the food, agricultural, petroleum, and chemical industries.

Container Specialties now offers PolyGuard — co-extruded EVOH barrier bottles engineered for superior product protection. PolyGuard delivers outstanding resistance against oxygen, VOCs, and chemicals, with the barrier built directly into the bottle during molding — no post-treatment chemicals required. The result is a stronger, more eco-conscious solution that also drives cost savings through faster turnaround times and streamlined production.

## Geosyntec consultants

### TABLE 13 Geosyntec

Geosyntec is a global consulting firm of more than 2,800 employees that works with multinational clients with Global Product Stewardship challenges. Geosyntec helps these clients bring their products to market safely and in compliance with applicable regulations and supply chain requirements. Their product registration, compliance, and safety experts bring a deep knowledge of best practices, as well as nuanced scientific and regulatory understandings, helping ensure chemicals, products and packaging are safe and sustainable from raw-material sourcing and manufacturing through use and disposal. In a time when regulations regarding product and chemical safety are in flux, Geosyntec provides clients with strategies rooted in sound science.

## Consumer Product INGREDIENTS DATABASE

### TABLE 14 HCPA Consumer Product Ingredient Dictionary

The HCPA Consumer Product Ingredients Dictionary is the comprehensive technical reference for companies complying with California's Cleaning Product Right to Know Act. The Dictionary ensures standard ingredient nomenclature and definitions for formulators, suppliers, regulators, retailers, and other stakeholders. The Dictionary contains more than 1,700 Ingredient Records and defines more than 7,000 technical or other names, as well as more than 1,100 trade names used by 80 suppliers. The Dictionary also includes Lists of Lists information to assist with ingredient disclosure efforts.

## EMERSON

### TABLE 15 Emerson

Emerson is a Fortune 500 corporation headquartered in St. Louis, Missouri. The company manufactures and delivers a range of industrial automation and control systems, climate control solutions, measurement and analytical instrumentation, and provides engineering services for industrial, commercial, and consumer markets. Emerson's Gas Analysis & Detection Business are world leader in Mid Infrared gas analysis using Quantum Cascade Lasers with a portfolio of equipment to support Leak Detection requirements of Aerosol Fillers Globally – Providing the capability to achieve regulatory and automation goals of our Aerosol customers.

Exponent®

x

Hard Questions.  
Tough Challenges.  
Bring It.

Regulatory and scientific expertise  
that spans the product lifecycle

Exponent's global, multidisciplinary approach to chemical regulatory compliance focuses on the complete product lifecycle, addressing strategic and technical planning needs, as well as complex regulatory issues.

We support manufacturers, registrants, distributors, and retailers of all sizes globally through integrated activities at every stage of a product's lifespan, including due diligence and strategic regulatory assessments, proactive and reactive interface with regulatory agencies, product registrations, product stewardship strategies, and follow-up regulatory support.
